Fundraising Goal: ₺2,000.00

Duration: 05 Dec 2020 to 14 Jan 2024

About this campaign:

I have lived in a place with many different environs most of my life, and almost always had access to clean drinkable water, even though those in the nearest town barely could drink theirs. It's my goal one day to own my own house one day, and a non-negotiable for me is to have my own water source (i.e.: well) independent of a town.

If constant clean water is so important to me in a town surrounded by water, how much more important would it be for those who have never had easy access to any water.

I am raising money for
Water Projects

Save the life of a child or adult in a developing country by providing clean water along with health and hygiene education that will safeguard them from deadly, but preventable, diseases. Simple and effective water filters, community wells and water storage solutions, and sanitation facilities can all drastically improve lives and open doors to share the eternal hope of Jesus Christ.
